Premium Wallpaper Collection

Our company has established in 2005 as GMZ wall coverings. We're manufacturing our products those exported in a (40.000) sqm which has (17.000) sqm indoor area in Konya, Turkey.

We reached millions of places with our wall coverings manufactured for domestic and foreign home, office and other living areas. We gained the appreciation of our partners and flourished day by day through our high stock, unconditional service, thousands of patterns, in-time delivery and products without sacrificing quality. We pulled out all the stops to improve dealership in Turkey and the world.

GMZ Wall Covering family will continue to journey by adding new parts to its values without sacrificing the principles in further.

GMZ
WALLPAPER

The only product that solely use water-based ink in the industry. Generally, 97% of toxic substances are emitted from the design print layer of a wallpaper. The wallpapers that use solvent-based ink show 40 times higher volatile organic compound (VOC) rate than wallpapers that use water-based, aqueous ink do. Just by using water-based ink, we reduced the VOC emission rate significantly and improved the environment of the production site.

Healthy Building Material aims to facilitate the sustainable and balanced development of the air purification, indoor air quality management and indoor environment control industries, contributing to the preservation of the environment with with improved air quality.

Vinyl wallcovering is a high quality, strong and enduring material. Constructed with a paper and vinyl design, these highly resistant wallpapers stand up to the test of time. From traditional to contemporary. Our collection of vinyl wallpapers offer a stylish and durable choice. They are washable and more resistant to damage than others kinds of wallpapers. Wallpapers are a perfect solution for commercial buildings and houses

Most important of all is to is recognize that good customer service encompasses any interaction, that a consumer or potential customer may have with your company, and it includes the entire experience, from initial contact to final sale and beyond.

Gmz continuously strives to produce ingenious products by taking various creative challenges to make differentiated designs and new interior trends. Furthermore, Gmz is operating the largest wallpaper designresearch institute in Turkey and training professional designers thorough the sysematic processes. Gmz's brand power has been enhanced by its differentiated designs that can stimulate customers' emotions and desires, and improve the value of their lives.
